Swing Door Refrigerator with Hydrocarbon Refrigerant~True Standard Look Version 01

STANDARD FEATURES

GDM-49-HC~TSL01

DESIGN

 True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, and lower utility costs in an attractive merchandiser that brilliantly displays packaged food and beverages.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains cabinet temperatures of 33°F to 38°F (.5°C to 3.3°C) for the best in food preservation.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Bottom mounted condensing unit positioned for easy maintenance. "No stoop" lower shelf maximizes visibility by raising merchandised product to higher level.

CABINET CONSTRUCTION

- Exterior non-peel or chip black powder coated cold rolled steel; durable and permanent.
- Interior attractive, white aluminum liner with stainless steel floor.

PLAN VIEW

- Insulation entire cabinet structure is foamedin-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
 Welded, heavy duty steel frame rail, black powder
- Weided, neavy duty steel frame rail, black powd coated for corrosion protection.
 Frame rail fitted with leg levelers.
- Frame rail fitted with leg levelers.
 Illuminated exterior sign panel. Variety of sign options available.

DOORS

- Double pane thermal insulated glass swing doors. Black powder coated frames.
- Each door fitted with 12" (305 mm) long extruded handle.
- Self closing doors. Positive seal, torsion type closure system.
- Magnetic door gaskets of one piece construction, removable without tools for ease of cleaning.

SHELVING

- Eight (8) adjustable, heavy duty PVC coated wire shelves 24% "L x 22½" D (624 mm x 572 mm). Four (4) chrome plated shelf clips included per shelf.
- Shelf support pilasters made of same material as cabinet interior; shelves are adjustable on ½" (13 mm) increments.

LIGHTING

• LED interior lighting provides more even lighting throughout the cabinet. Safety shielded.

MODEL FEATURES

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- See our website www.truemfg.com for latest color and sign offerings.
- Listed under NSF/ANSI Standard 7 for the storage and/or display of packaged or bottled product.

ELECTRICAL

• Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply. Upcharge and lead times may apply.

- □ Stainless steel exterior.
- Black aluminum interior liner with black shelving.
- Stainless steel interior liner.
- G" (153 mm) standard legs.
- □ 6" (153 mm) seismic/flanged legs.
- $\square 2\frac{1}{2}$ (64 mm) diameter castors.
- □ 4" (102 mm) diameter castors.
- □ Wine racks.
- Additional shelves.
- TrueFlex gravity feed organizers.
- Pricing strips.
- Padlock.
- Barrel Locks located in grill assembly (requires one per door)
